📄 SUMMARY

Software Engineer with 2+ years of experience building scalable web applications using React.js, Next.js, TypeScript, NestJS, and MongoDB. Skilled in full-stack development, API design, system integrations, and delivering high-quality solutions in fast-paced startup environments.

📁 PROFESSIONAL EXPERIENCE

Software Engineer

Avadhuta Technologies Private Limited 🔗

06/2024 – Present
Bangalore, India

- Developed and maintained full-stack web applications using React.js, Next.js, TypeScript, NestJS, and MongoDB.
- Designed and implemented scalable REST APIs, authentication systems, and role-based access control (RBAC).
- Built business-critical features, admin dashboards, and workflow management solutions for SaaS applications.
- Automated operational processes using n8n workflows, reducing manual effort and improving efficiency.
- Integrated third-party services including payment gateways, cloud storage, and external APIs.
- Collaborated with cross-functional teams to deliver high-quality, scalable, and production-ready solutions.

🧠 SKILLS

Frontend:

React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Ant Design

Backend:

Node.js, NestJS, Express.js, REST APIs, GraphQL

Databases & ORM:

MongoDB, PostgreSQL, TypeORM, MySQL

APIs & Architecture:

REST APIs, GraphQL, Microservices

Cloud & DevOps:

AWS, Docker, Git, GitLab CI/CD, Linux

Tools & Automation:

n8n, Postman, Swagger

📁 PROJECTS

Medico – Doctor Appointment Platform

- Built an appointment booking system with Stripe payment integration.
- Implemented JWT authentication, admin dashboard, and Cloudinary image uploads.
- Developed role-based features for patients, doctors, and administrators.

Drip – E-Commerce Platform 🔗

- Developed a complete e-commerce platform with Razorpay payment integration.
- Built order management, wallet system, and referral rewards functionality.
- Created an admin dashboard with analytics and downloadable reports.

🎓 EDUCATION

Professional Training – Full Stack Engineering (MERN)

Professional Training – Full Stack Engineering (MERN)

- Built full-stack applications using the MERN stack.
- Developed REST APIs and integrated frontend/backend systems.
