

Nihal M

Full-Stack Software Engineer | MERN | Building AI-Powered Products

mnihal7961@gmail.com | +91 8606862954 | Bangalore, India | [linkedin.com/in/nihalmaliyekkal](https://www.linkedin.com/in/nihalmaliyekkal) | nihalm.vercel.app

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 2+ years of experience building scalable SaaS applications using React, Next.js, NestJS, and MongoDB. Specializes in designing **secure REST APIs**, AI-powered applications with LLM integrations, and workflow automation in fast-paced startup environments.

SKILLS

Languages: TypeScript, JavaScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, Zustand, TanStack Query, Tailwind CSS, Ant Design, Material UI, Bootstrap, shadcn/ui

Backend: Node.js, Express.js, NestJS, REST APIs, GraphQL, WebSockets, JWT Authentication

Databases, ORM & Vector Databases: MongoDB, PostgreSQL, MySQL, Redis, TypeORM, Qdrant, ChromaDB

AI & Automation: LLM Integration, LangChain, LangGraph, RAG, Prompt Engineering, n8n

DevOps, Cloud & Architecture: Docker, Kubernetes, AWS (EC2, S3), Nginx, CI/CD, Microservices Architecture

Tools & Workflow: Git, GitHub, Postman, VS Code, GitHub Actions

PROFESSIONAL EXPERIENCE

Software Engineer, Avadhuta Technologies Private Limited Jun 2024 - Present · Bangalore, India

- Engineered scalable full-stack SaaS applications using the **MERN** stack for production environments.
- Designed secure **REST APIs**, authentication systems, and **role-based access control (RBAC)**.
- Integrated third-party services including payment gateways, cloud storage, email services, and external APIs.
- Developed AI-powered features through **LLM integrations** and automated business workflows using **n8n**.

PROJECTS

Agent Forge - Multi-Agent AI Platform <https://github.com/MNihal7961/agent-forge-be>

- Developed a production-ready **Multi-Agent AI platform** using the **MERN** stack, integrating **LangGraph**, **LangChain**, **RAG**, and **Qdrant** for intelligent AI workflows.
- Built scalable microservices, document processing, vector search, AI tool calling, streaming responses, and secure REST APIs using **Redis**, **Docker**, **AWS**, and **JWT**.

ExamNotes.ai – AI-Powered Exam Notes & Revision Platform <https://github.com/MNihal7961/ExamNotes.ai>

- Developed a production-ready **AI-powered SaaS platform** that generates exam-oriented notes, revision summaries, important questions, and AI-generated diagrams, charts, and graphs using **Gemini AI**.
- Implemented **JWT authentication**, **Stripe payment integration**, and a **credit-based subscription system** using **React.js**, **NestJS**, **Node.js**, and **MongoDB**.

EDUCATION

Professional Training – Full Stack Engineering (MERN), Brototype · Calicut, Kerala

Higher Secondary Education (Science), GVHSS Kuttichira · Calicut, Kerala
